

To whom it may concern,

Our firm, **CONQUEST Investment Advisory AG**, conducted an independent audit of the **Breakout Multiplier portfolio**, published by Stock Market TV, a financial media and research firm, through April 30, 2026.

We have tested 100% of the trades made from inception through April 30, 2026, and confirm that the Breakout Multiplier System achieved the following performance statistics since its inception:

- **53.54%** of the trades have achieved a return of 100% or more
- **39 trades** have achieved a max return of 10x or more (900%) -- this is **9.85% of total trades**
- **23.23%** of our trades achieve a return of at least 5x
- The average max return on the double trades is **586.43%**
- **38.38%** of the trades went to zero without ever hitting 100%

As part of our audit procedures, we verified **all trade publishing activity and timing, entry and double prices, and the profit-and-loss figures for each trade** made by the **Breakout Multiplier portfolio**.

CONQUEST Investment Advisory AG is a wealth management company supervised by Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin), Germany.

Sincerely,

Dr. Conrad Mattern
